

Couleurs Paradis gîtes

Basse-Terre Nord

Attribution : (© Kaz Anne)

4 locations de vacances en Guadeloupe, à Pointe-Noire : appartement, bungalow, studio et chambre d'hôtes.

Useful information

Category : Ecotourism accommodation

Type : Clef Verte

Description

Eco-gîtes

4 holiday rentals in Pointe-Noire, Guadeloupe: apartment, villa, bungalow, bed and breakfast, lodge.

While waiting to explore - on the spot - the COULEURS de PARADIS area

...

But what are the Colours of Paradise ?

You can expect all the GREENS of the palm trees which sway gently with the trade winds, the BLUES of the sea which ripples before your eyes, the TURQUOISE of the swimming pool and spas, the BLACK of the hummingbirds or frigate birds, the singing COLOURS of the Madras-print hammocks, the YELLOWS and PINKS of the countless flowers in the tropical garden, the GOLD of the sunsets, the SILVER of the moon on the sea, and the indescribable CLARITY of the BLUE SKIES and the fragrant air.

Not forgetting all the underwater NUANCES where the vibrant growths of seaweeds and corals, the TWO-TONE striations of the angel-fish and the shimmering COLOURS of the clown-fish will make you ... FORGET THE BLACK AND WHITE OF DAILY LIFE!

Environmental assets :

its situation between the Caribbean sea and the tropical forest can only confirm the team's approach to the preservation of the environment.

The recovery of rainwater, solar-powered hot water and the sorting and recycling of waste are among the approaches the team put in place as soon as the gîtes were created.

These actions spring from their convictions as well as yours: saving energy, using certified products, serving local and organic foods at table, encouraging our local craftsmen, etc.

Obtaining the Clef Verte classification has allowed them to go further, and to share the concept by which they live.

Geographical location

All useful information

Practical info
