Category : Ecotourism
accommodation

Type : Clef Verte

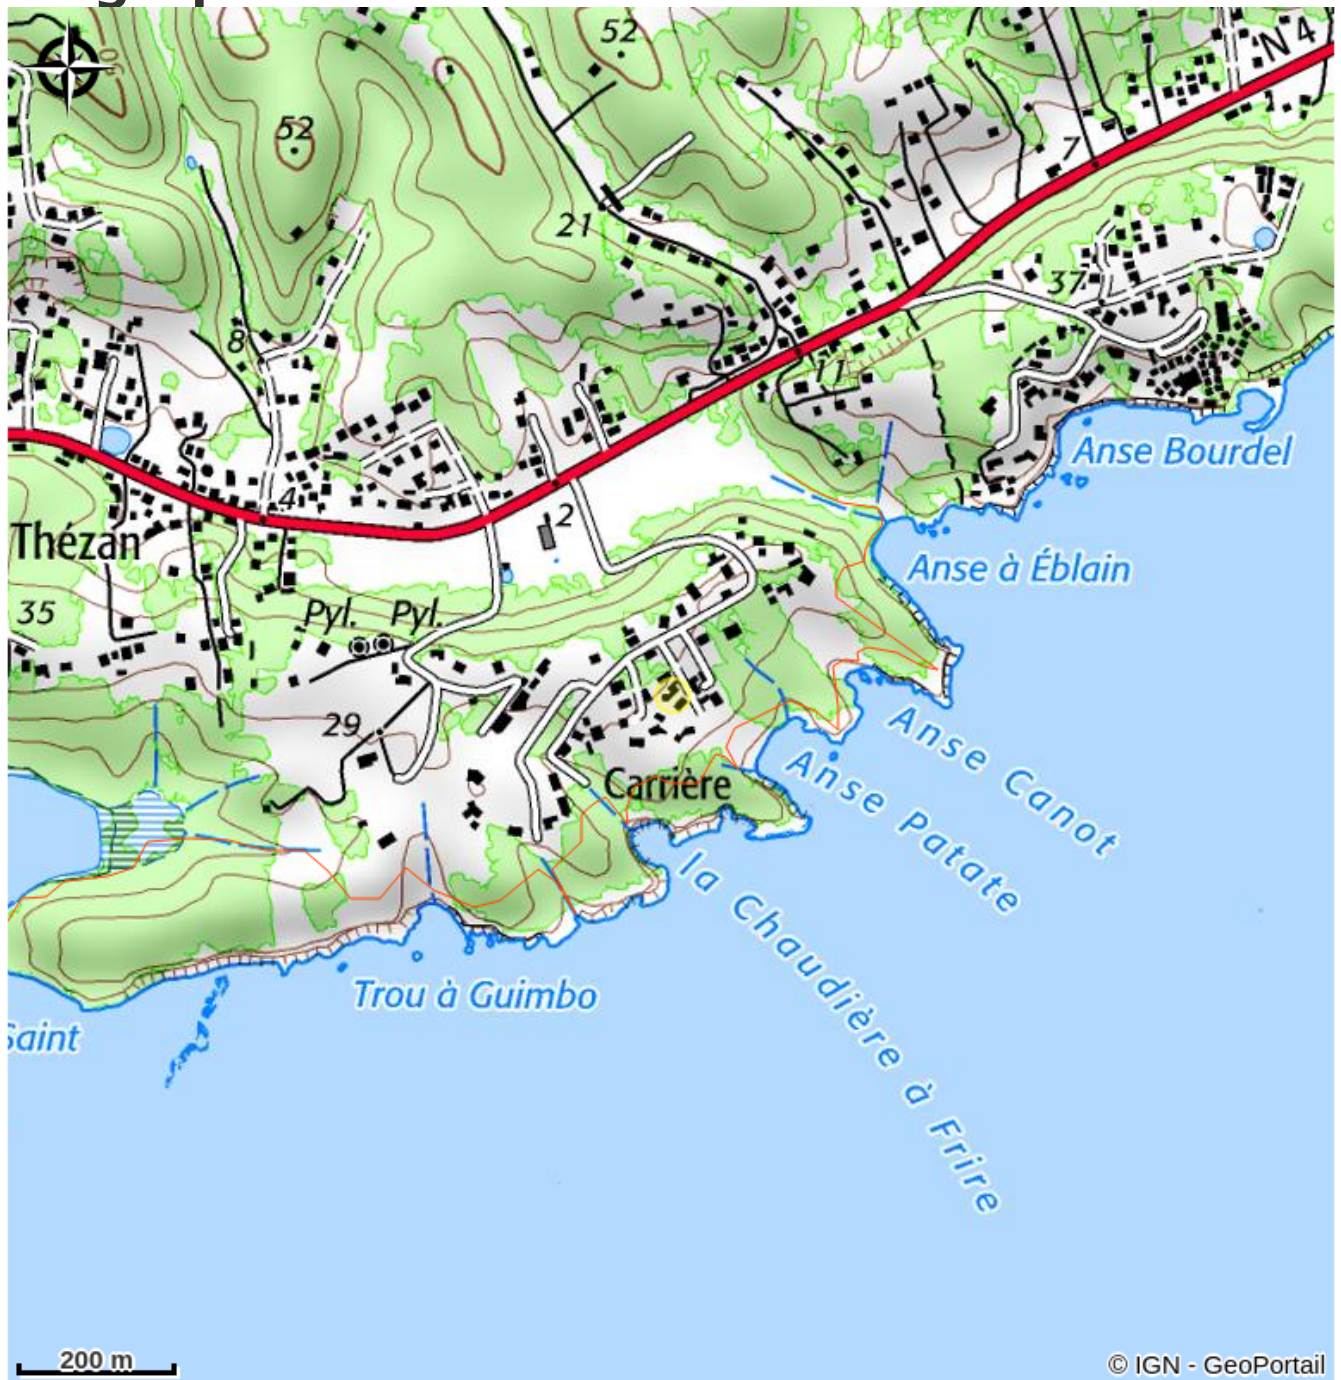

Description

The Iguane House Villas & micro spa are perched on the Falaise du Flibustier (Buccaneer's Cliff), with a view over Marie-Galante. With a pure and simple interior design, customised spa treatment and a cool environmental attitude, but with no cutting corners on quality. The site has four 3-star furnished villas with a contemporary charm for 2 or 4 people. The villas are nestled in private gardens and each one has a swimming pool.

The micro-spa provides customised wellness treatments or a pure relaxation experience in the Jacuzzi.

Ideally located on Grande-Terre on the way to Sainte-Anne, this is a great base camp for visiting Guadeloupe.
